

MOBILE ALERTS

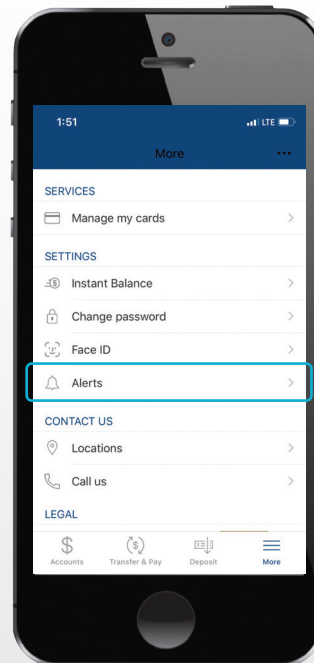

Log into the app using your username and password, face ID or fingerprint authentication.

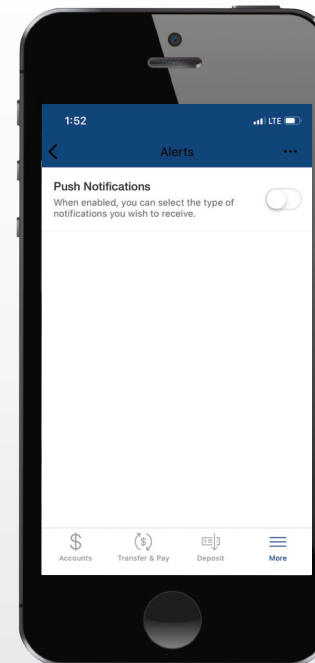

After logging in, their account overview page will appear. To enable Mobile Alerts, tap on the "More" button located at the lower right hand corner of the screen.

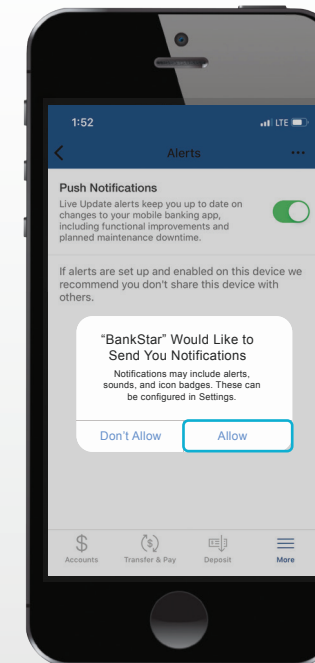

Under settings, tap on the "Alerts" tab.

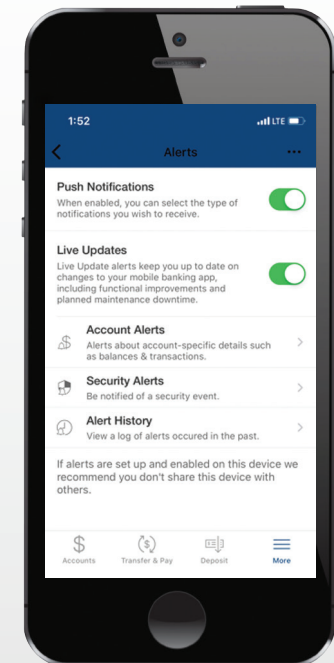

To enable push notifications, toggle the switch.

Depending on the mobile operating system, users may be asked to enable push notifications. To confirm, click "Allow."

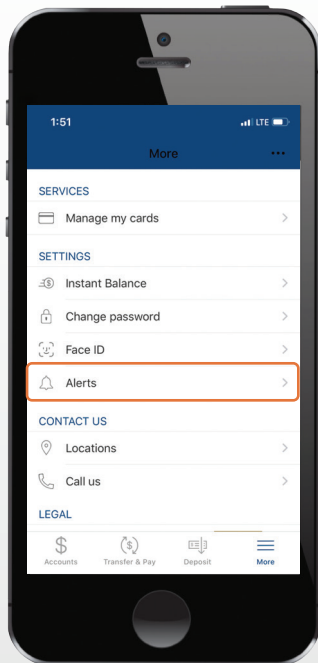

The green toggle indicates that this feature is enabled. Users can customize alerts by selecting "Account Alerts," "Security Alerts." Users can view their alert history by selecting "Alert History."

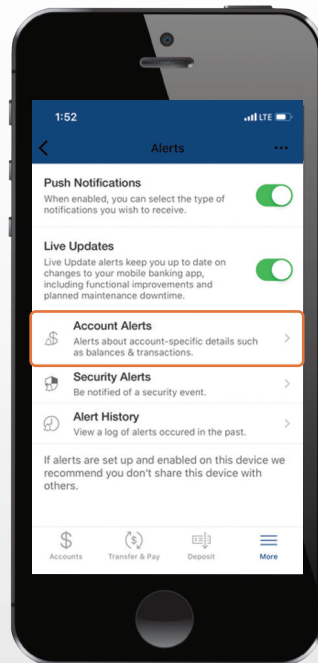

ACCOUNT ALERTS

Under the "More" menu, tap on the "Alerts" tab located under settings.

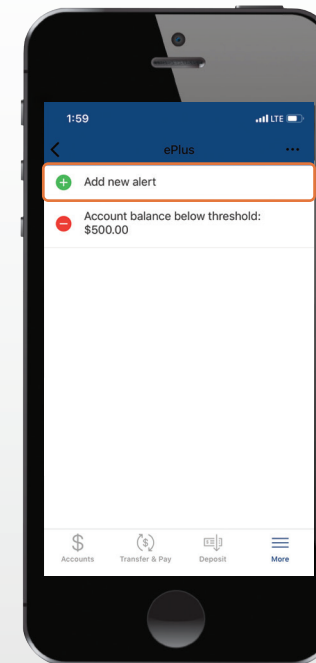

After enabling push notifications, tap on the "Account Alerts" tab.

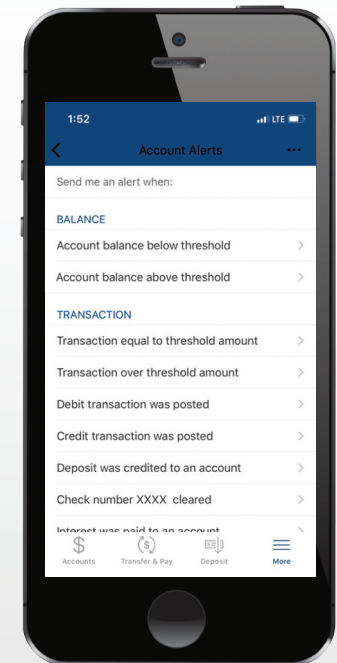

Determine which account(s) you wish to receive alerts.

After selecting account(s), users can customize alerts. To add a new alert, tap on the "Add New Alert" tab located at the top of the screen.

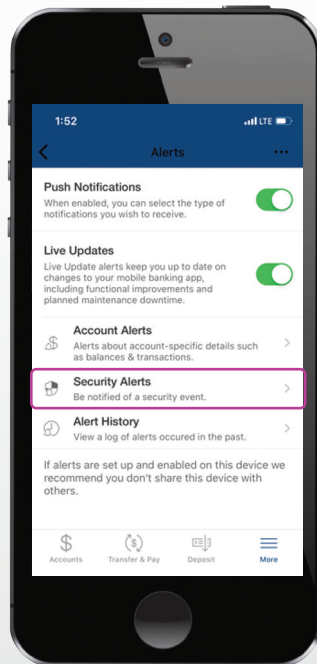

Users can receive balance and transaction alerts. Tap on the alerts to set up specific parameters. Once enabled, these settings will be saved.

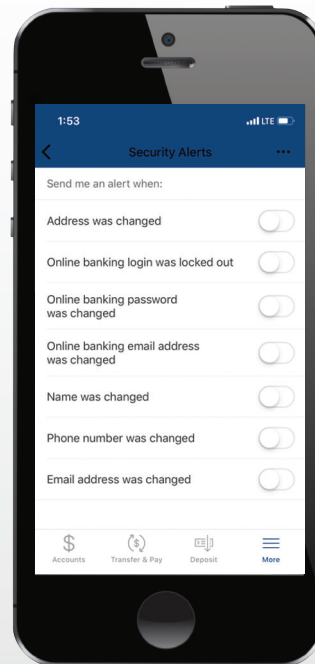

SECURITY ALERTS

After enabling push notifications, tap on the "Security Alerts" tab.

Users can toggle on security alerts for a change of address, account lock outs and password changes. Toggle on the security alerts you want to receive.

The green toggle indicates that these security alerts are enabled.
